- Understanding the problem. (Recognizing what is asked.)
- Devising a plan. (Responding to what is asked.)
- Carrying out the plan. (Developing the result of the response.)
- Looking back. (Checking. What does the result tell me? )

Problem -

- Create a program to play poker.
  - Stud
  - Five Card Draw
    - Five Cards initially
    - BET.
    - REDRAW.
    - BET AGAIN
    - RANK
    - POT AWARD
- Poker Class
  - Ranked hands.
    1. high card (highest value card)
    2. one pair (2 cards of same rank)
    3. two pair
    4. three of a kind (3 cards of same rank)
    5. straight (5 numbers/rank in a row)
    6. flush (5 cards with all the same suite)
    7. full house (3 cards of same rank and 2 cards of same rank)
    8. four of a kind (4 cards of same rank)
    9. straight flush (5 numbers in a row with same suite)
  - Split pot vs full pot.
  - Repeat game option.

Planning -

POKER:

Public Member Functions

void	<b>mkdeck ()</b>
<b>card</b>	<b>draw ()</b>
void	<b>deal (int)</b>
void	<b>bets ()</b>
void	<b>addpot (int chips)</b>
int	<b>getpot ()</b>

virtual void	<b>play</b> ()=0

Public Member Functions

void	<b>setrank</b> (int c)
bool	<b>getfolded</b> ()
void	<b>setfolded</b> ()

bool	<b>getwinner ()</b>
void	<b>setwinner ()</b>
int	<b>getrank ()</b>
int	<b>betchips (int c)</b>
int	<b>getchips ()</b>
int	<b>addchips (int c)</b>
void	<b>addcard (const <b>card</b>)</b>
Public Member Functions inherited from <b>card</b>	
int	<b>getvalue ()</b>
void	<b>setvalue (int v)</b>
char	<b>getsuit ()</b>
void	<b>setsuit (char c)</b>
<b>card (int value, char suit)</b>	

#### Carrying out the Plan

- Make sure all assessors are put into place.
- Make sure there's nothing wrong with the code.
- Made correct private and protected variables.

#### Looking back.

- Everything went well there was some debugging with problems of inheritance. Making sure everything was accessible and easily modifiable was a challenge. There was issues with pushing and popping from the vectors as they don't do so well when encapsulated. There was a few errors when compiling because the C++11 standard is needed with some of the header files. I will try again on flip.
